» WHY ABU DHABI: Country general information

ABU DHABI is at the heart of the oil and gas industry, with UAE holding the world's sixth largest oil reserves, the country remains one of the world's most reliable producers and exporters of crude oil.

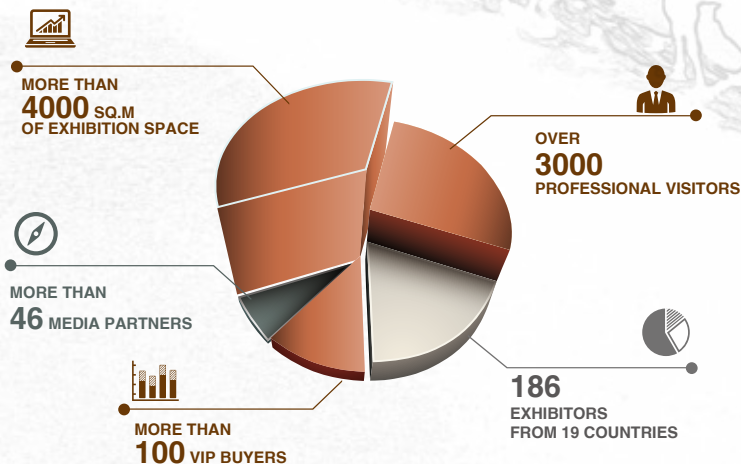

According to the 2nd Competitiveness Report released by the Abu Dhabi Department of Economic Development, despite slowing growth from ongoing low oil prices, the economic diversification, foreign exchange reserves and low debt levels is making the UAE the lowest risk country in the GCC region in terms of economic stability.

Market and opportunities

According to the report of Freedonia Group, the global demand for pumps, valves, pipes and compressors is expecting a steady growth in 2017-2018
